## DETAILED ACTION

### *Election/Restriction*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to overcurrent arc suppression, classified in class 218, subclass 22.
  - II. Claims 9-12, drawn to a bimetal trip means, classified in class 335, subclass 35.
  - III. Claims 13-19, drawn to an operating system for a circuit breaker, classified in class 335, subclass 172.
  - IV. Claims 20-24, drawn to a circuit breaker housing, classified in class 335, subclass 202.
2. The inventions are distinct, each from the other because of the following reasons: ~~Inventions~~ I-III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an arc suppression design not using the bimetal trip of II, the operating system of III or the housing of IV; invention II has separate utility such as a bimetal trip not using the arc suppression design of I, the operating system of III or the housing of IV; invention III has separate utility such as a operating system not using the arc suppression design of I, the bimetal trip of II or the housing of IV; and invention IV has separate utility such as a housing not using the arc suppression design of I, the bimetal trip of II or the operating system of III. See MPEP § 806.05(d).

Art Unit: 2832

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lincoln Donovan whose telephone number is (703) 308-3111.

The fax number for this Group is (703)308-7724.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703)308-0956.
